PLANT AND SOIL

**International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.**

**Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.**

**Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.**

*Issued under the auspices of the*

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

**Executive Editors:** D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren (Gr.).

**Secretary:**
G. H. Arnold

**Assistant Secretary:**
J. K. Smit

c/o Institute for Soil Fertility
Haren (Gr.), Netherlands

**Consulting Editors**; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; A. van Diest, Wageningen; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

*Druk: Koninklijke Drukkerij Van de Garde N.V.. Zaltbommel.*

J. W. KETCHESON and M. JAKOVLJEVIC, *Short communication.* Effect of plant growth on transformation of mineral nitrogen in soils . . . . . 254

D. H. KHAN, Studies on Mg, B and Zn deficiencies in acid 'Wilder' soil of California . . . . . 177

G. J. KOLENBRANDER, Calculation of parameters for the evaluation of the leaching of salts under field conditions, illustrated by nitrate . . . . . 439

Z. LASTŮVKA and J. MINÁŘ, The relation between nutrient solution concentration and growth and ion absorption of peas (*Pisum sativum L.*). I. Growth of peas . . . . . 189

Z. LAŠTŮVKA and J. MINÁŘ, The relation between nutrient solution concentration and growth and ion absorption of peas (*P. sativum*, L.). II. Accumulation, distribution and utilization of nitrogen, phosphorus and potassium . . . . 412

O. M. LAWAS and P. J. GOODMAN, The effect of phosphorus levels and previous cropping on seedling growth of *Lolium* selection lines . . . . . 103

WALTER T. MCDONOUGH and DON L. CHADWICK, Pregerminative leaching losses from seeds . . . . . 327

R. H. MILLER and T. J. CHAU, The influence of soil-organisms on the growth and chemical composition of soybean . . . 146

E. N. MISHUSTIN, The importance of non-symbiotic nitrogen-fixing micro-organisms in agriculture . . . . . 545

D. N. MUNNS, Nodulation of *Medicago sativa* in solution culture. V. Calcium and pH requirements during infection. 90

M. A. OGIGIRIGI, T. T. KOZLOWSKI and S. SASAKI, Effect of soil moisture depletion on stem shrinkage and photosynthesis of tree seedlings . . . . . 33

LARS N. OVERREIN, Immobilization and mineralization of tracer nitrogen in forest raw humus. II. Effect of temperature and incubation time on the interchange of urea-, ammonium-, and nitrate-$N^{15}$ under water-logged conditions. 207

L. N. OVERREIN, Tracer studies on nitrogen immobilization-mineralization relationships in forest raw humus . . . . . 478

F. Plhák and Miroslava Vicherková, The influence of previous plant cultivation on soil nitrification . . . . . 50

P. A. Poapst, C. Genier and M. Schnitzer, Effect of a soil fulvic acid on stem elongation in peas . . . . . 367

Emine Polar, The distribution of $Zn^{65}$ in the cotyledons of *Vicia faba* and its translocation during the growth and maturation of the plant. . . . . 1

C. R. K. Prashar, *Short communication.* Some factors governing rice-ratoon yields . . . . . 540

G. J. Racz and R. J. Soper, Solubility of phosphorus added to four Manitoba soils with different calcium and magnesiun contents . . . . . 303

E. R. C. Reynolds, Root distribution and the cause of its spatial variability in *Pseudotsuga taxifolia* (Poir.) Britt. 501

R. J. Roughley, The preparation and use of legume seed inoculants. . . . . 675

R. J. Roughley and P. J. Dart, *Short communication.* Root temperature and root-hair infection of *Trifolium subterraneum* L. cv. Cranmore . . . . . 518

G. R. Saini, *Short communication.* Aluminium in salt-affected coastal alluvial soils . . . . . 538

P. O. Salonius, J. B. Robinson and F. E. Chase, The mutual growth of *Arthrobacter globiformis* and *Pseudomonas fluorescens* in gammasterilized soil . . . . . 316

N. K. Savant, D. R. Kene and M. M. Kibe, *Short communication.* Influence of alternate submergence and drying of rice soils prior to resubmergence on available phosphorus. 521

D. A. van Schreven, Some factors affecting growth and survival of *Rhizobium* spp. in soil-peat cultures . . . . . 113

Y. Singh and A. Dartigues, Efficiency of polyphosphates and orthophosphate in zinc-deficient soils . . . . . 397

R. N. Singh, D. C. Martens and S. S. Obenshain, The effect of limestone application on the availability and form of phosphorus in Davidson clay loam . . . . . 57

WILLIAM H. SMITH, *Short communication.* Technique for collection of root exudates from mature trees . . . . . 238

S. C. SRIVASTAVA, A new concept to guide timing of nitrogen fertilisation for sugarcane . . . . . 373

W. D. P. STEWART, Algal fixation of atmospheric nitrogen. 555

S. M. TAHA, S. A. Z. MAHMOUD and M. S. M. MOUBAREK, Effect of reclamation of sandy soil on some chemical and microbiological properties . . . . . 282

E. J. THOMPSON and C. A. BLACK, Changes in extractable organic phosphorus in soil in the presence and absence of plants. II. Soil in a simulated rhizosphere . . . . . 161

E. J. THOMPSON and C. A. BLACK, Changes in extractable organic phosphorus in soil in the presence and absence of plants . . . . . 335

K. VLASSAK, Total soil nitrogen and nitrogen mineralization. 27

ARTHUR WALLACE, *Short communication.* Monovalent-ion carrier effects on transport of $Rb^{86}$ and $Cs^{137}$ into bush bean plants . . . . . 526

R. E. WILDUNG, G. CHESTERS and D. E. BEHMER, Alkaline nitrobenzene oxidation of plant lignins and soil humic colloids . . . . . 221

D. O. WILSON and H. M. REISENAUER, Effect of some heavy metals on the cobalt nutrition of *Rhizobium meliloti.* . . . 81

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

Instructious to authors – 1970 . . . . . 268

Soil and Seed Inoculation – a symposium . . . . . 543–736

V. P. Agnihotri and O. Vaartaja, *Short communication.* Effect of seed exudates of *Pinus resinosa* on the germination of sporangia and on the population of *Pythium irregulare* in the soil . . . . . 246

I. A. Ayed, A study of the mobilization of iron in tomato roots by chelate treatments . . . . . 18

S. W. Baard, The carbon/nitrogen requirements of *Helminthosporium sativum* and the influence of organic residues on disease incidence . . . . . 169

A. Balasubramanian, D. Joseph Bagyaraj and G. Rangaswami, Studies on the influence of foliar application of chemicals on the microflora and certain enzyme activities in the rhizosphere of *Eleusine coracana* Gaertn. . . . . 198

J. G. A. La Bastide and C. P. van Goor, Growth-site relationships in plantations of *Pinus elliottii* and *Araucaria angustifolia* in Brazil . . . . . 349

J. H. Becking, Plant-endophyte symbiosis in non-leguminous plants . . . . . 611

Linna Bentley, P. DeKock and R. H. E. Inkson, An investigation into the effect of varied phosphorus and iron concentrations in the nutrient medium on the cation and anion contents of oats . . . . . 271

F. J. Bergersen, Some Australian studies relating to the long-term effects of the inoculation of legume seeds . . . . 727

Erik Björkman, Forest tree mycorrhiza – The conditions for its formation and the significance for tree growth and afforestation . . . . . 589

D. E. Bottrill, J. V. Possingham and P. E. Kriedemann, The effect of nutrient deficiencies on photosynthesis and respiration in spinach. . . . . 424

Margaret E. Brown and N. Walker, *Short communication.* Indolyl-3-acetic acid formation by *Azotobacter chroococcum.* 250

A. C. Bunt and Z. J. Kulwiec, The effect of container porosity on root environment and plant growth. I. Temperature. 65

N. G. Cassidy, *Short communication.* The distribution of potassium in plants . . . . . 261

R. J. Cook and R. I. Papendick, Soil water potential as a factor in the ecology of *Fusarium roseum* f. sp. *cerealis* 'Culcimorum' . . . . . 131

R. A. Date, Microbiological problems in the inoculation and nodulation of legumes . . . . . 703

Roy C. Dawson, Potential for increasing protein production by legume inoculation . . . . . 655

M. Dooley and C. H. Dickinson, The microbiology of cut-away peat. II. The ecology of fungi in certain habitats . . 454

W. M. Fogarty and J. A. Ward, *Short communication.* The influence of peat extract on *Clostridium acetobutylicum* . . 534

G. Gissel-Nielsen, *Short communication.* Loss of selenium in drying and storage of agronomic plant species . . . . . 242

G. Gissel-Nielsen and B. Bisbjerg, The uptake of applied selenium by agricultural plants. 2. The utilization of various selenium compounds . . . . . 382

A. A. Holland, Competition between soil- and seed-borne *Rhizobium trifolii* in nodulation of introduced *Trifolium subterraneum* . . . . . 293

N. Hulpoi, S. Dakesian, G. H. Eliade and L. Ghinea, The effect of soil physical conditions on the nitrofication of $NH_4$. 468

A. Z. Joffe and N. Lisker, *Short communication.* Effects of crop sequence and soil types on the mycoflora of groundnut kernels . . . . . 531

M. J. Jones and J. W. Parsons, *Short communication.* The influence of soil C/N ratios on nitrogen mineralization during anaerobic incubation. . . . . 258
